SINGAPORE RED CROSS ACADEMY

LEARNING OUTCOMES

By the end of this course, learners will be able to:

- Apply strategies for utilising social capital developing resilient and inclusive communities
- Create a sustainable and inclusive crisis intervention and communication plan
- Manage post-crisis efforts sustainably through a structured collaboration with local and overseas organisations

COURSE STRUCTURE

01

Understanding SDG goals, ESG and DEI in local and overseas context

Gain an overview of global frameworks like the SDGs, ESG, and DEI, and how they are applied in Singapore and internationally.

02

Enhancing Social Capital for Sustainable Community Resilience

Understand how trust, networks, and collaboration strengthen community resilience. Explore local and global examples, and learn tools to activate community engagement for long-term sustainability.

03

Sustainable and Inclusive Crisis Intervention and Management

Explore crisis management strategies that emphasize sustainability, equity, and inclusion while establishing long-term systems for recovery, preparedness, and resilience.
